

# Dynamics GP Great Plains 2016

## System Requirements

### Client Requirements

Item	Requirements		
	<b>32-bit</b>	<b>x64</b>	
<b>Operating System</b>	Microsoft Windows 10 Professional Edition	Microsoft Windows 10 Professional Edition	
	Microsoft Windows 10 Enterprise Edition	Microsoft Windows 10 Enterprise Edition	
	Microsoft Windows 8 & 8.1 Professional Edition	Microsoft Windows 8 & 8.1 Professional Edition	
	Microsoft Windows 8 & 8.1 Ultimate Edition	Microsoft Windows 8 & 8.1 Ultimate Edition	
	Microsoft Windows 8 & 8.1 Enterprise Edition	Microsoft Windows 8 & 8.1 Enterprise Edition	
	Microsoft Windows 7 Professional Edition	Microsoft Windows 7 Professional Edition	
	Microsoft Windows 7 Ultimate Edition	Microsoft Windows 7 Ultimate Edition	
	Microsoft Windows 7 Enterprise Edition	Microsoft Windows 7 Enterprise Edition	
<b>Processor</b>	1 Dual Core or 1 Single Core Processor 2.6 GHz or higher	1 Dual Core or 1 Single Core Processor 2.6 GHz or higher	
<b>Available Hard Disk Space</b>	2GB or more on the system root	2GB or more on the system root	

<b>Minimum Available RAM</b>	2GB or more	2GB or more
<b>Network Card</b>	1GB Ethernet	
<b>Microsoft Office</b>	Microsoft Office 2013 32bit & x64 Microsoft Office 2016 32bit & x64	

**NOTES:**

1. If using Office x64, the server type in System Preferences (Microsoft Dynamics GP | Tools | System | Setup | System Preferences) must be set to Exchange.
2. The Exchange server type only supports XPS and DOCX. PDF is not supported with the Exchange server type.
3. If using Office 32bit, the server type in System Preferences can either be MAPI or Exchange

<b>Internet Explorer</b>	Internet Explorer 11.0 - Desktop Mode Only Edge
<b>ODBC Driver</b>	SQL Native Client 11.0 SQL Native Client 10.0

**\*\*NOTE:** A 32bit ODBC DSN is required for Microsoft Dynamics GP 2016\*\*

<b>Adobe</b>	Adobe X
<b>Virtual Environments Supported (Optional)</b>	Hardware Virtualization Windows Server 2016 Hyper-V Windows Server 2012 Hyper-V Windows Server 2012 R2 Hyper-V Windows Server 2008 R2 Hyper-V Windows Server 2008 Hyper-V

## Software Virtualization

### Microsoft Application Virtualization (App-V) 5.0

For additional Virtual Technology Support, click the link below to review the Virtualization Support Policy Wizard. Choose Products to see if your Virtual Technology is listed.<http://www.windowsservercatalog.com/svvp.aspx?svppage=svvpwizard.htm>

## NOTES

1. The following are no longer supported with Microsoft Dynamics GP 2016:
  - a. Microsoft Office 2010 32bit & x64
2. A 32-bit ODBC DSN is required for Microsoft Dynamics GP 2016 on a 32-bit and x64 machine. Refer to [KnowledgeBase Article 870416](#) for the steps to setup a 32-bit ODBC DSN on an x64 machine.
3. When you deploy a system in a virtual environment, make sure that you have sufficient hard disk space to avoid performance problems. Each computer that you deploy in a virtual environment should meet or exceed the random access memory (RAM) requirements and the hard disk space requirements. For more information, click the following article number to view the article in the Microsoft Knowledge Base: [897615](#) Support policy for Microsoft software running in non-Microsoft hardware virtualization software.

review the Virtualization Support Policy Wizard. Choose Products to see if your

Virtual Technology is

listed. <http://www.windowsservercatalog.com/svvp.aspx?svvppage=svvpwizard.htm>

## NOTES

1. The following are no longer supported with Microsoft Dynamics GP 2016:
  - a. Microsoft Office 2010 32bit & x64
2. It is recommended to have a dedicated Terminal Server/Citrix Server. There may be performance losses if Microsoft SQL Server is running on the Terminal Server/Citrix Server. Therefore, it is highly recommended to have two separate servers. One server with Terminal Server and/or Citrix and one server with Microsoft SQL Server.
3. If using Adobe, Adobe must be installed at the Terminal Server.
4. If using Lync for Unified Communications, a remote app for Lync must also be configured and copied to the client along with the Microsoft Dynamics GP remote app. The Lync remote app must be launched first and then the Microsoft Dynamics GP remote app.
5. If accessing Citrix, the hardware and software must be supported according to the Citrix configuration requirements.
6. Verify processors can be upgraded.
7. The amount of RAM needed depends on the number of concurrent users per Terminal Server.
8. Verify switch is capable of handling network traffic.
9. Increased user count may require greater RAM and Processor speed.
10. Users utilizing Management Reporter or Crystal reporting via Terminal Services may require increased hardware to increase performance.
11. When you deploy a system in a virtual environment, make sure that you have sufficient hard disk space to avoid performance problems. Each computer that you deploy in a virtual environment should meet or exceed the random access memory (RAM) requirements and the hard disk space requirements. For more information, click the following article number to view the article in the Microsoft Knowledge Base: [897615](#) Support policy for Microsoft software running in non-Microsoft hardware virtualization software.

## Additional Information

1. This document represents configurations tested by Microsoft Business Solutions and supported by Microsoft Dynamics GP Technical Support. Use of technologies not specified in this document is not recommended and will not be supported. Testing is ongoing, and as newer technologies become supported this list will be updated.

2. The following are no longer supported with Microsoft Dynamics GP 2016:

- a. Windows XP all editions
- b. Windows Server 2003 all editions
- c. Windows Vista all editions
- d. Microsoft Office 2007
- e. Microsoft SQL Server 2008 all editions
- f. Microsoft SQL Server 2008 R2 all editions
- g. Office Communicator 2007
- h. Microsoft Office 2010 32bit & x64
- i. Internet Explorer 10.0

3. Click [HERE](#) to view a KnowledgeBase article regarding support in a virtual environment. The following virtual products have been tested: Microsoft Windows Server 2016 Hyper-V, Microsoft Window Server 2012 R2 Hyper-V, Microsoft Windows Server 2012 Hyper-V, Windows Server 2008 R2 Hyper-V, Microsoft Windows Server 2008 Hyper-V, Microsoft Application Virtualization (App-V) 5.0.

For additional Virtual Technology Support, click the link below to review the Virtualization Support Policy Wizard. Choose Dynamics GP as the product.

<http://www.windowservercatalog.com/svvp.aspx?svvppage=svvpwizard.htm>

4. The Microsoft Dynamics GP 2016 core application is supported in a peer to peer (workgroup) environment. This environment excludes all web applications such as Web Services, eConnect, and Management Reporter.

If web applications are used, a domain is required.

5. Click [HERE](#) for more information regarding SQL Server 2012 supported features with Microsoft Dynamics GP 2016.

6. If you have questions regarding licensing SQL Server for use with Microsoft Dynamics GP. Please contact a Licensing Specialist at 1-800-426-9400.
